

BOUY GUARD FOR SENATOR TILLMAN IN CHICAGO, ILL.

MAYOR DUNNE REFUSES TO ACT
AS PRESIDENTIAL OFFICER AT
TONIGHT'S LECTURE.

MAY DISCUSS RACE QUESTION

Mrs. Warren Springer, Former New-
ark Woman, One of Committee
to Meet Senator.

Chicago, Nov. 27.—"You bet I'm going to speak in Chicago. That is, if the colored men don't butcher me," Senator Tillman before starting from Plattsville, Wis., for Chicago, this morning is reported to have made this characteristic "pitchfork" promise in reference to the lecture for the benefit of the Chicago Union hospital at Orchestra Hall tonight. "This talk of violence to me is all bosh," he added. "Those blacks are afraid to touch me. I know them too well to be scared by their threats."

Nevertheless preparations to guard Tillman carefully during his stay in Chicago are being made.

Chicago, Nov. 27.—Senator Tillman, who spoke at Plattsville, Wis., last night, reached Chicago early this afternoon and was met by C. A. Coey, G. W. Levin and Mrs. Warren Springer, who was formerly Miss Margaret Magness of Newark, O. Several mounted police were in attendance to prevent any outbreak. All the seats have been disposed of for tonight's lecture. An offer of \$3000 and expenses to Mrs. A. J. Keeler, financial agent, to cancel the lecture was refused last night.

Chicago, Nov. 27.—Following Mayor E. F. Dunne's refusal to preside at a meeting to be addressed here by United States Senator Tillman of South Carolina, because of the strenuous objection made to Senator Tillman's appearance by the colored race of Chicago, it was decided that the senator should be attended by a body-guard from the time he arrives in Chicago from Plattsville, Wis., until he has delivered his address and enters the train on which he departs from the city.

Police in plain clothes will be scattered about in the audience on the lookout for mischiefmakers, and every negro admitted to the hall will be closely watched if indeed he is not searched for concealed weapons. That these precautions are timely was made manifest by the hostile temper displayed by a committee of negroes who called upon Mrs. A. J. Keeler, financial agent for the Chicago Union hospital, at her office. The committee suggested it would be unwise for Senator Tillman to discuss the negro question in his lecture at Orchestra hall. Mrs. Keeler responded that Senator Tillman was old enough and intelligent enough to pass upon the wisdom of his course.

President Murray Submits His 46
Committees to the Constitu-
tional Convention.

Guthrie, O. T., Nov. 27.—When the constitutional convention met here after a recess of three days President Murray submitted his 46 committees. The opponents of prohibition are disturbed over the appointment of a Prohibitionist, K. J. Curi of Bartlesville, as chairman of the liquor committee. The statehood enabling act places the Indian Territory portion of the new state under prohibition for a period of 21 years, and it is believed that an effort is being made by the Indian Territory delegates to bring about constitutional prohibition over the entire state.

BISHOP WALKER ON CRAPSEY'S ACTION

Buffalo, N. Y., Nov. 27.—Bishop Walker is quoted, in reference to the resignation of Dr. Crapsey, as saying he did not care to make any extended statement. "I deeply regret his declaration to retract his statements. His letter, as you will see, simply reasserts his sayings. To me it is a source of great sorrow that Dr. Crapsey could not see his way to get back to his old teachings, in which he was so able. This is the most painful happening in my life. I have known Dr. Crapsey for many years, and have honored and respected him for his great abilities. Dr. Crapsey may still be a member of the church and a communicant, but he is barred from performing official duties."

Did Not State He Would Not Resign.
Denies Interview.

New York, Nov. 27.—United States Senator Thomas C. Platt said concerning an alleged interview with him published in this city, in which he was quoted as saying that he would not resign his office as senator: "I have not said I would not resign. I saw no reporter, in fact, nor have I said to anybody that I would not resign in my resignation to Governor Higgins. I never said to any newspaper man that I would stay in Washington all winter. In fact, the whole interview about my refusal to resign is untrue. I have said nothing, nor am I going to say anything now."

PROSECUTION SCORES AGAIN ON GILLETTE

Herkimer, N. Y., Nov. 27.—Damag-
ing evidence against Gillette was
heard today when medical experts
testified to various physical condi-
tions which precluded the supposition
that the girl died from drowning.

Dr. Douglass was the chief wit-
ness of the day and testified to the
girl's physical condition. Mrs. Brown,
mother of the dead girl and her
daughters left the court room while
the doctor's testimony was being
heard. Counsel for defense objected
to the introduction of an exhibit
Judge Devendorf allowed the exhibit
to go into the evidence.

VOTE ON STATEHOOD

Santa Fe, N. M., Nov. 27.—The
vote of New Mexico cast in the recent
election has been canvassed officially.
The majority for statehood was 1,130.
Andrews (Rep.) was declared elected
delegate to congress by a plurality of

contest, alleging gross frauds in sev-
eral counties. The total vote cast

MOVEMENT MADE TO PARDON FREINER

It is understood that there is a
movement on foot to bring about the
release of Harry Freiner, who was
charged with the killing of Thomas
Osborne in South Newark, and who
was, last spring, convicted of man-
slaughter and sentenced to a term in
the Mansfield reformatory.

Freiner's uncle, the author of the
famous Freiner two cent fare bill, a
member of the state legislature, con-
ferred with Governor Harris regard-
ing the matter sometime ago and the
governor instructed him to have
his nephew's attorney draft a peti-
tion and present it with signatures of
prominent Newark citizens and it
would receive his consideration.

The friends of the young man here
appear very anxious about the matter
and it is understood that several
prominent persons have agreed to
sign such a petition if presented.

CASH REGISTER CO. TO STAY IN DAYTON

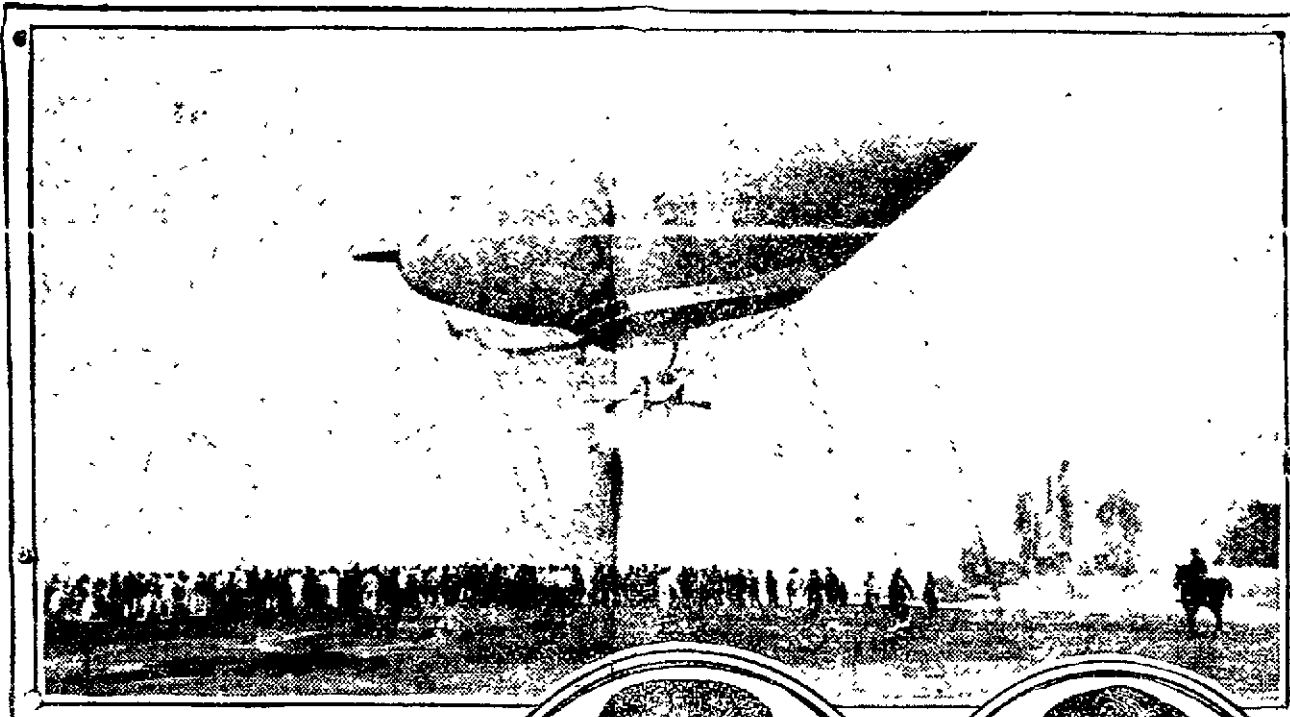

A Newark visitor here Monday
night reported another deal on foot
to the removal of the National Cash
Register company from Dayton to Ro-
chester, N. Y. Its removal to Roches-
ter would be a stupendous proposition.
Nevertheless, it is understood that J.
Sonneburn of Rochester, representing
certain powerful parties in that city,
was in Dayton Saturday in conference
with the officers of the company. It
is understood that Mr. Sonneburn was
prepared to offer the company \$150,-
000 and any number of shares if they
would consider the change.

For the past seven years the com-
pany has been having difficulty in get-
ting a railway switch to the plant and
the Dayton council finally acted favor-
ably last week. Had this not been
done there is no question but that
steps would have been taken to re-
move the plant from Dayton.

A special to the Advocate from Day-
ton says that it is practically assured
the big plant will remain in Dayton.

PRESIDENT TALKS OF TRIP

Returns to the White House After
His Eventful Journey and Is Warmly
Welcomed by Officials and
Others—To Write a Special Mes-
sage on the Canal.

Washington, Nov. 27.—President
Roosevelt returned to Washington
Tuesday night at 10:40, completing
his remarkable trip to Panama and
Porto Rico. The trip up the Potomac
on the converted yacht Mayflower, to
which he and his party were trans-
ferred from the Louisiana at Piney
Point, was made without special in-
cident. As the Mayflower pulled into the
dock at the rear of the office of the
commandant at the navy yard, Miss
Ethel Roosevelt, the president's
daughter, and Miss Hagner, Mrs.
Roosevelt's secretary, were waiting to
greet the party. Miss Roosevelt im-
mediately rushed on board as soon as
the gangplank was laid and affection-
ately greeted her father and mother.
There was also at the dock to wel-
come the president Captain McCoy,
U. S. A., and Lieutenant Commander
Key of the marine corps, the presi-
dent's aides, and the commandant and
other officials of the navy yard and
the Uruguayan charge d'affaires. The
president landed within 10 minutes
after the arrival of the Mayflower.
To those who met him he stated that
he had a delightful trip and that he
was feeling fine.

President and Mrs. Roosevelt reached
the White House shortly after 11
o'clock. As the president alighted
from his carriage he shook hands
with all the attaches and others
waiting on the portico. Speaking of
his trip the president said: "We had
a very pleasant, very enjoyable time,
and I am deeply impressed with the
United States navy, with Panama and
with Porto Rico." The Panama canal,
it was stated by the president, will be
a subject of a special message, and
consequently on that subject the presi-
dent will say nothing at this time.

Pedro Roquesa Bermudez, charge
d'affaires of Uruguay, was the only
known man to greet the president
who greeted the president upon his ar-
rival. At the front entrance to the
navy yard Senor Bermudez was de-
layed by the marine guard, who re-
fused to admit him without the con-
sent of the commandant. After being
delayed for 20 minutes he was admit-
ted, and when the president appeared
on the deck of the Mayflower the dip-
lomat was the first to rush up the
gangplank. He protested to the presi-
dent against the manner in which he
had been treated by the marine guard.
At today's cabinet meeting Mr.
Roosevelt told of his Panama trip.
He will send a special message to con-
gress on the subject.

AUTOCRACY IS HARDENING GRIPS ON REFORMERS

Warsaw, Nov. 27.—The exile of
political offenders to Siberia and
northern Russia commenced again
despite the claims by the government
that more leniency was to be shown
such transgressors. Three hundred
exiles were forwarded last night to
northern Russia. The return to the
policy of expelling revolutionary agi-
tators and sympathizers demonstrates
the hardening of its grip on the re-
formers by the autocracy.

Budapest, Nov. 27.—Twenty thou-
sand Chinese coolies may be import-
ed in Hungary to relieve the shortage
in the labor market and break the
power of farm laborers. Emigration
to the United States have so reduced
the number of coolies that the farm-
ers have great difficulty in getting
men for work on farms. The labor-
ers have taken advantage of the op-
portunity to make exorbitant de-
mands. They decline to sign con-
tracts with their employers for next

OVER THE FALLS

An Unknown Man Is Swept In a
Small Boat.

Niagara Falls, N. Y., Nov. 27.—An
unknown man was swept over the
Horseshoe fall in a small boat after
a daring attempt had been made to
save him. An employee of the Ontario
Power commission first saw the lit-
tle craft coming down the river in the
grasp of the current. The occu-
pant, a man, was standing on fan-
tastically waving hands. Two rowboats
started down the Chippewa river to
ward the Niagara to attempt res-
cue at the mouth of the small stream.
The rescuers went far beyond what is
considered the danger line, but a
cross current carried the unfortunate
man away from them.

home. The woman had turned on the
gas and, taking her two children in
her arms, lay down with them. She
left a note which read as follows: "To

happy and want to die, so I might as

MEAT FIGHT COMING

Washington, Nov. 27.—Representa-
tive Mann of Chicago, said today
that Congress, at the coming session,
will not amend the pure food law as
the time is too short. There will be
hearings, however, on two proposed
amendments, one to label cans and
packages, and the other to show the
exact amount in pounds or the liquid
measure they contain. The other is
to stamp the date on each package as
it is prepared for the market.

Washington, Nov. 27.—A spirited
contest is expected in the opening of
Congress over meat inspection. Sen-
ator Beveridge is determined to press
an amendment to the law providing
that the cost of inspection be paid by
the packers and that each package
or case be dated.

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. AMUSEMENTS

PRINCE CHAP TONIGHT.

Water N. Lawrence will present Cyril Scott in "The Prince Chap," at the Auditorium tonight. The production will be identical with that played for over 150 nights in New York.

In many a play the leading actress assumes several characters, but in the great comedy success "The Prince Chap," we have the novelty of a role requiring three actresses. The heroine grows up as the action progresses. Claudia starts as a child or girl, but by her mother to the care of a poor artist. He would shrink the charge, but can't resist the little toddler. her, the undressing of her for the night, the hearing of her ingenious prayer and the putting of her to sleep with a fairy story make you feel like a boy upon an intimate home incident. The tale he tells is about his own love of a Princess. Alice H. makes Alice a princess to Claudia for in his dreams Alice is a princess to him. And he tells it well, for the actor is Cyril Scott.

The first number of the International Lecture Association course will be given tonight at the Baptist church by S. M. Spedon (cartoonist) on the subject "Things We Laugh and Wonder At." Packers Will Resist.

Washington, Nov. 27.—A spirited contest is expected in the opening of the approaching session of congress over meat inspection. Under the terms of the law enacted last session the government is required to pay the cost of inspection, that concession being made by the advocates of the measure in order to secure its crystallization into law. Senator Beveridge is determined to press an amendment to the law providing that the cost of the inspection shall be borne by the packers, and that each package or can containing meat shall bear the date of inspection. It is quite certain that the packers will put up a hard fight against the amendments, and as the approaching session is limited in length by law, they may be able to prevent any action at this time inimical to their interests.

Woman Held.

New York, Nov. 27.—A coroner's jury returned a verdict holding Mrs. Anisia Louise De Massey responsible for the death of Gustav Simon, a shirt-waist manufacturer. Simon was shot and fatally injured last week in his factory on Broadway. Mrs. De Massey, who had been employed by Simon as a designer, was arrested, charged with having fired the shots. She has persistently denied her guilt. Witnesses who appeared before the coroner testified, however, that just before his death Simon identified Mrs. De Massey as his assailant.

Statesman Shot by Woman.

Paris, Nov. 27.—Pierre Merlou, who was minister of finance in the Rouvier cabinet and who was appointed French minister to Peru last September, was shot on the Boulevard des Italiens by a woman named Alle-magne. The woman fired four shots at M. Merlou. Two of the bullets struck him in the fleshy part of the leg, but the wounds are not dangerous. The woman was arrested and declared her act was one of vengeance. The police believe Alle-magne is the same woman who attempted M. Merlou's life several years ago, and who created a scandal in the chamber of deputies while he was serving as finance minister.

Chief Moore Rebuked.

Washington, Nov. 27.—Complying with instructions from the president, Secretary Wilson of the department of agriculture has administered to Willis L. Moore, chief of the weather bureau, a reprimand for his action, which the civil service commission declared improper, of urging a printer named Cooper to pay certain strike assessments imposed by the typographical union. Following his refusal to pay and his expulsion from the union, Cooper was ordered by Professor Moore to be transferred to New Orleans, but after the report of the commission had been submitted he was ordered reinstated in the office at Washington.

Ordered Out of Canada.

Hamilton, Ont., Nov. 27.—The only development in the strike situation here is the ordering out of Canada of Fred Fay, who is conducting the strike of the streetcar men. Asked about what he intended to do Fay said he has no desire to defy the law, but the authorities will have to show that he is breaking the law before he will leave Hamilton. Fay had a conference with Colonel Shepard, United States consul here, who at once communicated with authorities at Washington. Cars are running.

Posse in Pursuit.

Linton, Ind., Nov. 27.—A search of Tower Hill mine here disclosed the fact that Louis Shulley, who shot and fatally wounded W. A. Watson, had gone through a passageway connecting that mine with the Midland mine and had then escaped through a man-hole. Shulley, it is reported, was seen about two miles west of here. It is thought he intends to escape into Illinois. A posse is being organized here and surrounding country will be scoured.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasite germ will prosper, is like scooping water from the ocean to prevent the tide from rising.
You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.
You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing. When the germ is removed, the hair has no choice but to resume healthy growth and beauty.
Destroy the cause, you remove the effect.

Two Survivors Remain.

While it was at first believed that by the death of Willard Warner Friday at Chattanooga, Governor Harris had become the sole survivor of the Ohio Senate of 1866-7, it was later discovered that one other member is still alive—T. J. Godfrey, of Celina, now over 80 years old. The question was raised by this telegram to the governor, from E. Clay Drinkle of Lancaster: "The death of Willard Warner leaves you the only surviving member of the Ohio Senate of 1866-7."

Wade Ellis' Prediction.

Attorney General Wade Ellis predicts that the legislature will pass the county local option bill at its next session and that 71 out of the 88 counties in the state will be voted dry. The state receives a revenue from the saloons of something over two million dollars a year, and it will inevitably follow, he believes, if this source of revenue is decreased, that an inheritance tax law will be adopted. It is said that 1100 out of 1400 townships in the state have already voted dry.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other kidney disease, or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—see what it can and will do for you. Druggists recommend and sell.

Congressman Martin Luther Smyser neglected, failed, or perhaps forgot to exercise the courtesy of congratulating Mr. Ashbrook on the latter's election as his successor. This is the only case in all Ohio where the defeated candidate for Congress failed to congratulate his successful opponent. Mr. Smyser sent a telegram of congratulation to Mr. Ashbrook on the day succeeding the latter's nomination and intimated that he would expect a return of the courtesy on the day after the election. Mr. Ashbrook would certainly have been the gracious gentleman had Smyser been elected. But the people did not vote that way and Congressman Smyser seems to have forgotten all about his obligation in the exchange of courtesies that etiquette demanded of him.

Will the House Pass the Bill?

Washington correspondents who are discussing the business before the coming short session of Congress express the belief that the only measure that will receive serious consideration in the House in addition to the appropriation bills will be the bill that bars corporations from donating political campaign funds.

A correspondent of a leading journal says:

"Another bill that is now half a law prohibits contributions for political purposes from corporations, and it is expected the House will also put its 'O. K.' on this. The Senate did its part last spring with the knowledge that the measure would be held up in the House because a congressional campaign was imminent. But now that the election is over and another one will not take place for two years, the leaders of the House, Republican and Democratic, feel that the legislation will be timely now."

The bill having passed the Senate and then went to the House, where it had ample time and opportunity for consideration in committee, can be easily passed in the House and become a law if the Republican majority will permit it to be done.

Various opinions are expressed as to whether the Republican leaders will allow the bill to pass. The bill will be one of the tests in the coming session as to whether Republican Congressmen who have been professing of

"standing by Roosevelt" are sincere or are a set of hypocrites.

Failure to pass the bill will be turning Roosevelt down instead of standing by him, for it is a measure to them, especially Congressmen.

It's anything with the stand-patters to divert attention from the subject of tariff revision.

PILES CURED

Suffering for Years, and Bed-ridden From Piles, a Massachusetts Man is Cured by Pyramid Pile Cure.

Trial Package Mailed Free to All Who Send Name and Address.

"I tried the sample of your cure you sent to me. I used it and then bought a 50c box. The results were immediate and surprising to me, I assure you. I had been to a dozen of the best doctors and paid much money to them with no results whatever. I had this affliction for 20 years. I was in a hospital for a long time, and I left it physically broken down. I have been so bad for months at a time as to be unable to walk. Having a friend who lost his life by an operation, I desisted from ever having that experiment tried on me. I owe you a debt of gratitude. I believe that piles would be banished from humanity and become an unknown thing, were every one afflicted with them to but spend from 50c to \$1.00 for Pyramid Pile Cure. Its speedy action also makes it extremely favorable for impatient people. I am yours sincerely, George H. Bartlett, Mattapan, Mass."

Instant relief can be gotten by using the marvelous Pyramid Pile Cure. It immediately reduces all congestion and swelling, heals all sores, ulcers and irritated parts.

The moment you start to use it your suffering ends and the cure of your dread disease is in sight.

The Pyramid Pile Cure frequently renders a surgical operation unnecessary. Don't subject yourself to this except as a very last resort.

The Pyramid Pile Cure is put up in the form of "easy to use" specially made suppositories. They are soothing, painless, instant and certain.

A trial treatment will be sent you at once by mail, in plain, sealed wrapper, without a cent of expense to you, if you send your name and address to Pyramid Drug Co., 60 Pyramid Building, Marshall, Mich.

After you receive the sample, you can get a regular size package of Pyramid Pile Cure at your druggist's for 50 cents, or if he hasn't it, send us the money and we will send it to you.

SOLVES RIDDLE OF THE SPHINX

Rev. Dr. J. W. Phillips Also Finds the Ten Commandments Written Ages Before Moses.

Binghamton, N. Y., Nov. 27.—The Rev. Dr. J. W. Phillips, a leading Egyptologist, believes he has solved the riddle of the Sphinx. He submitted his ideas to the American Archaeological Society of New York, which consulted experts. They pronounced Dr. Phillips' suggestion as "ingenious and probable," and the archaeological society has invited him to lecture on the subject in the spring. He refuses to divulge the solution until then.

Dr. Phillips has compiled much from the Egyptian "Book of the Dead," dating back one thousand to two thousand years before Moses, in which he has found, he says, the Ten Commandments of the Bible, given to Moses many centuries later. They are not arranged in the same order, but are in almost the same form. He holds that these discoveries strengthen the authenticity of the Mosaic commandments.

HE PLEADED GUILTY

Patrick Oestreicher, a young married man, living west of the city, was arrested Monday afternoon on a charge of stealing eight ferrets, a horse blanket and a carriage robe. The articles and the ferrets were stolen from the barn of a man named Vanatta living in Granville township, northwest of the city. Officer Carroll was given a search warrant Monday afternoon and found the goods in Oestreicher's home. The man was arrested and brought to the city, where he was placed in jail.

In police court Tuesday morning, Oestreicher pleaded guilty and told the whole story. He asked for leniency from the court and as the man has a wife and family to support he was let off easily.

Vanatta felt that the man should have been severely punished, but the mayor considered the man's family when he passed the sentence. He drew \$5 and costs and a suspended jail sentence of 30 days. The ferrets and blankets were returned to their owner.

PECULIAR CASE IN COMMON PLEAS

ACTION GROWS OUT OF REALTY TRANSACTION IN HARTFORD TOWNSHIP.

Referee's Decision in Lingafelter Case—Business of the Day in Licking County Court House.

Kibler & Montgomery on behalf of plaintiff filed a petition Tuesday in the case of Jesse R. Higgins against E. A. Trout. The petition alleges that in 1891 plaintiff sold to one W. N. Myers a tract of land in Hartford township, by general warranty deed for a certain consideration, that because the plaintiff and his wife separated at that time and the wife could not join in the deed, Myers paid plaintiff only two-thirds of the purchase price, retaining the one-third, which he agreed he would pay to plaintiff whenever he secured the deed from his wife. Myers afterwards sold the land subject to that contract to defendant who agreed to comply with the same. In May of this year plaintiff secured a deed from his former wife and tendered a conveyance to the plaintiff and demanded this amount of the purchase money withheld, but defendant refused to accept the same or pay the sum and this suit is brought to recover the amount, and that the same be declared a lien upon the premises sold.

Lingafelter Decision.

Referee Charles M. Rogers of Columbus, has given a decision in the action commenced by E. W. Crayton, as trustee in bankruptcy, to set aside a mortgage given by James F. Lingafelter to the Homestead Building Association. The referee's decision was in favor of the trustee. All the Lingafelter property was covered by the mortgage which was claimed by the referee to be void because the building association was preferred as a creditor. The decision will cause the Lingafelter property to be divided equally between the association and the bank. The questions as to whether the contingent dower interest of Mrs. Lingafelter in the proceeds of the real estate now belong to her, or should be paid to Receiver Webb to apply on his claim, is not decided.

In Common Pleas.

Louisa Dold vs. Joseph Weaver, return of appraisement reported made, confirmed and order of sale.

Burr A. Wilson vs. Daniel Altshool and R. W. McPherson; action dismissed as to Altshool. In default as to McPherson; judgment on behalf of plaintiff for \$100 and interest. The suit was filed to recover money paid on a wager on a horse race. Fitzgibbon; Smythe & Smythe.

Henry Dean vs. Chas. Lugenbeal, judgment of dismissal without prejudice. An action to enforce a mechanic's lien. Davies.

Chas. C. Forry, receiver of Beatty & East vs. the Newark Natural Gas and Fuel company. Judgment is asked for plaintiff for \$4761.66, for damages caused by an explosion of natural gas at Beatty & East's drug store in February, 1904. A jury was secured to try the case. It was noticed that an insurance company which had insured some of the property destroyed had not been made a party and brought in by the answer. This necessitated the service of summons upon that company, and a continuance of the case resulted. Forry, Randolph, Flory & Flory; Douglass, Fitzgibbon.

Answer and Cross Petition.

In the case of the Citizens building and Loan Association vs. Chas. L. Barcus and others, W. W. Maholm & Company, defendant, has filed its answer and cross petition. For its answer it says that it consents to the sale of the premises described in the petition. It prays that the priority of the liens against the property held by the parties to this action may be by the court determined; that in the event of sale of the premises being had, that out of the proceeds arising after paying the costs and the liens of the plaintiff, the amount of the judgment, interest and costs due the defendant be paid in full. Answering defendant prays for all other proper relief. Robert W. Howard, attorney for W. W. Maholm & Co.

WHAT IS URIC ACID?

Everyone can understand that constipation, if allowed to run on, would finally so poison the body that death would result, yet few people realize that constipation is not of the bowels alone. The kidneys even more frequently become "constipated"—inactive, and the result is that a large amount of intensely poisonous waste matter accumulates within the system—even worse, it accumulates in the blood itself. This poisonous waste matter is called—uric acid.

Blood overloaded with this dead matter—uric acid—is the cause of all summer diseases. It is the cause of suffering from the heat, it causes sunstroke, by diseasing the system, it brings on Typhoid Fever. Uric acid is the poison in all impure blood, and so is the direct cause of all blood diseases, and all female weaknesses and women's diseases.

LIFE PLANT versus URIC ACID.

LIFE PLANT is a simple solvent of uric acid, yet it embodies the skill and wisdom of the world's greatest scientists in their study of diseases. **LIFE PLANT** acts through the blood—cleans it, drives out the impurity—uric acid—and renders the human system immune to heat and summer diseases.

LIFE PLANT is a necessity; during the summer months. It is the natural tonic, demanded by Nature during the heated period. To every home, every wise mother, to every sufferer from disease, **LIFE PLANT** is a constant necessity. Don't suffer from the heat nor from disease. Get a bottle of **LIFE PLANT** from your druggist, and write for free copy of valuable booklet pointing the way to good health. Write today to **THE LIFE PLANT COMPANY** Canton, Ohio.

Christian Science Lecture.

A lecture, on Christian Science, will be given under the auspices of "First Church of Christ, Scientist," of this city. The lecturer will be Edward A. Kimball of Chicago, Ill., member of the "Christian Science Board of Lectureship," of "The First Church of Christ, Scientist," in Boston, Mass. The public has had the pleasure of listening to this scholarly speaker on one or two previous occasions, and will, no doubt, welcome the opportunity of hearing him again, on other phases of his chosen subject. WHAT IS SOCIALISM?

A debating society in Manayunk
offered last week a prize of five dol-
lars for the best definition of social-
ism.

Among the definitions submitted
were the following:

"Socialism means that no man has
a right to starve to death where mil-
lions are suffering from indigestion."

"Socialism is other people's
money."

Socialism is the selfishness under-
neath trying to annihilate the selfish-
ness on top."

"Socialism is the revolution of the
stomach."

"Socialism is envy legitimized."

The following definition is the one
that gained the five dollar prize:

"Socialism is a combination of ef-
forts and theories tending to estab-
lish legally among all mankind the
greatest possible equality of wealth
or misery."—Philadelphia Bulletin.

An official report of the State of
Illinois is to the effect that the pro-
duction of mineral wealth in that
State last year aggregated a total of
\$27,989,000, of which \$29,751,000
was coal. Coal, oil and limestone
came next to coal in importance.
The production of Portland cement,
which has become one of the most
important factors in building, is in-
creasing. In the last 25 years the
production of coal in Illinois has in-
creased 54 per cent. If the same
rate of increase continues, for an
other 25 years the annual production
then will be 125,000,000 short tons.
The production in the last 10 years
has increased 113 per cent.

MT. VERNON MAY LOSE HOSPITAL

THE STREET RAILWAY COMPANY
MUST EXTEND LINES OR
SITE WILL BE SOLD.

Since Promise Was Made Property
Has Changed Hands and Now a
Hitch Appears.

Columbus, O., Nov. 27. The State
Sanitarium for Consumptives may
not after all be located near Mt. Ver-
non, in Knox county, although the
site has been purchased and plans
are being considered for the build-
ings. The hitch that has come up in
the proceedings is the failure to make
good a promise to the state that the
existing electric line in Mt. Vernon
would be extended to the grounds for
the hospital in order that the
building material might be trans-
ported from the steam railway lines.

It appears that since the promise
was made another company has taken
over the electric line and there is now
manifested a disposition to "hold up"
the state. The state officials on the
board have served notice on the Cit-
izens' Committee at Mt. Vernon that
if the pledge is not confirmed within
30 days all work will be stopped, and
that a recommendation will be made
to the General Assembly to sell the
land and order a new site selected.

Dr. M. W. Hissner, who represents
the new purchasers visited some of
the state officials and asked that a
contract be made with him for the
building and use of the line. His
proposition was vetoed and he was
informed that the order of the board
would be carried into effect by De-
cember 17 complete assurances were
not given that the line would be
built.

suffered with a complication of kid-
ney, rheumatism and urinary trou-
bles, and physicians could not help
me. In spite of all the medicines I
used I grew continually worse. My
back became so weak I could scarcely
get about and there was a con-
stant dull heavy aching in the small
of the back, varied with occasional
sharp shooting twinges like knife
thrusts that almost paralyzed me. I
expected that I would never be able
to get rid of the trouble but in talk-
ing about my case with Mr. Crayton,
the Newark druggist, he advised me
to try Doan's Kidney Pills, saying he
had known of many of his customers
who had used Doan's Kidney Pills for
the same troubles and had found
great relief. I got a box from him,
went home and began using them. To
make a long story short, they cured
me and the cure has been a perma-
nent one. I have had no more back-
ache, my back is strong, the kidney
secretions are regular and normal,
and I attribute my present good
health to the use of Doan's Kidney

ABOUT CIGARS.
Collins & Son Tell What Newark Smokers Most Enjoy.

"You would be surprised," said Mr. Collins, of Collins & Son's drug store, "to see the different selections of cigars made in our store in the course of a day, and hear each man's reason for his preference." Continuing he said that the majority of Newark smokers now prefer a Wadsworth Bros.' Chico.

It is a finely flavored, clear Havana filled cigar made from tobacco thoroughly ripened under the rays of the southern sun. The tobacco used in the Chicos is fully matured and seasoned and burns finely and perfectly, with a fine flavor and fragrance. Mr. Collins recommends a cigar with a dark wrapper, as this shows that the tobacco has been fully matured, but whichever color, light or dark, is selected in the Wadsworth Bros.' Chico, he says you will get a good perfect, satisfying cigar, equal to the ordinary ten and fifteen cent values.

RELICS OF MOUND BUILDERS

SPLENDID COLLECTION OWNED BY MR. O. S. GILBERT OF THIS CITY.

Over 600 Specimens of Cut Flint Representing Possibly 50 Tribes in the Collection.

Possibly one of the most complete and valuable private collections of curios and relics of the Mound Builders in the state is that in the possession of Mr. O. S. Gilbert. Mr. Gilbert possesses in all over 600 specimens of cut flint, representing possibly fifty tribes, besides some hatchets, nails, "fishers," chisels, drills, mortars, and ceremonial stones known to have been used by the Mound Builders and their descendants, the American Indians. The important feature of the remarkable collection is the fact that it is confined almost without exception to Licking county.

The great number of curios represented about 25 years of collecting, most of it by Mr. Gilbert himself while a part of the specimens was found by the late Dr. David Williams of Columbus, formerly of Alexandria, and came into Mr. Gilbert's possession at Dr. Williams' death. The collection is valued very highly and would undoubtedly net the possessor a neat sum were he inclined to dispose of the relics to historical societies.

Mr. Gilbert has made a study of his findings for several years out of pure love of the work and gave an Advocate man an interesting description of the various kinds of carved flint and the use of the stone implements according to the reports of those engaged in historic research.

For instance, every tribe used a special design in carving the flint arrow heads. Some are long and narrow, o'heps, flat, short and wide, while some have rough edges and some are smooth, but one characteristic is closely observed in nearly all and that is they are beveled on opposite sides of the opposite edges to that in their flight they will whirl as do rifle balls.

Many arrow heads have been found which are known to have been brought from other parts of the country and tell, in their mute way, of the invasion of tribes foreign to this section. One in particular attracted the attention of the Advocate representative. It is a head of medium shape and distinct design which is of Georgian flint. This kind of stone is not known to exist in any part of the United States outside of the state of Georgia.

The Moundbuilders' vessels were found over the county in fields, woods, and in the mounds. The stone axes, in the possession of Mr. Gilbert, are about six in number, and weigh from about a quarter of a pound to eight and a half and eleven and a quarter pounds. A large mortar, weighing several pounds, has a hole in it about four inches deep and about the same measurement in diameter.

An Indian pipe which has been carved and the hole started through its center testifies to a sudden invasion of the enemy and the flight or death of the worker who had only half finished the pipe. The drilling was done with a flint drill short, sharp, and arranged so that it can be held between the thumb and forefinger and turned until it wears a deep hole through the stone stem of the pipe to a point under the bowl. Then the drilling of the bowl is begun until a complete opening through the pipe is finished.

Many interesting facts can be gleaned from an examination of the curios and one with a fertile imagination can almost find a use for each of the peculiar objects used by the earlier inhabitants of the country.

It is more interesting, too, because it serves to bring to the mind the "crisis" strides of our civilization from the use of the crude implements made of common earth in its various processes of evolution, to the present day works of the hand of man.

SWITCHMEN MAY GO ON A STRIKE

OFFER OF THREE CENT ADVANCE DECLINED BY CIN. CINCINNATI YARDMEN.

Six Lines Are Involved—Watering Stock—Southern Roads Restrained—Railway News.

(Bulletin.)

Cincinnati, O., Nov. 27.—The announcement is made today by the U. & O. S. W. officials that the company will grant an advance of four cents an hour to the switchmen. This conclusion was reached after many conferences. The switchmen's committee desired that the advance should date back to the first of November, but the official objected. They made the increase operative from December 1. The notice of the advance was posted this morning. The situation on the other roads centering here is extremely critical.

Cincinnati, O., Nov. 27.—The relations between the managers of the railroad lines in this city and the switchmen are on high tension, and unless an amicable settlement is made within the next 48 hours a strike may result in the local yards. The switchmen have held several meetings and are determined to insist upon the increase of 4 cents an hour that has been granted such railroad employees in Chicago and elsewhere.

The lines involved are the Baltimore & Ohio Southwestern, the Chesapeake & Ohio, the Cincinnati, New Orleans & Texas Pacific, the Norfolk & Western, the Cincinnati, Hamilton & Dayton and the Chicago, Cincinnati & Louisville. The managers of these lines are willing to grant an increase of 3 cents, it is said, but this the union men is not inclined to accept. The railroad managers held a meeting and evolved a general policy in regard to the question, but did not make it public.

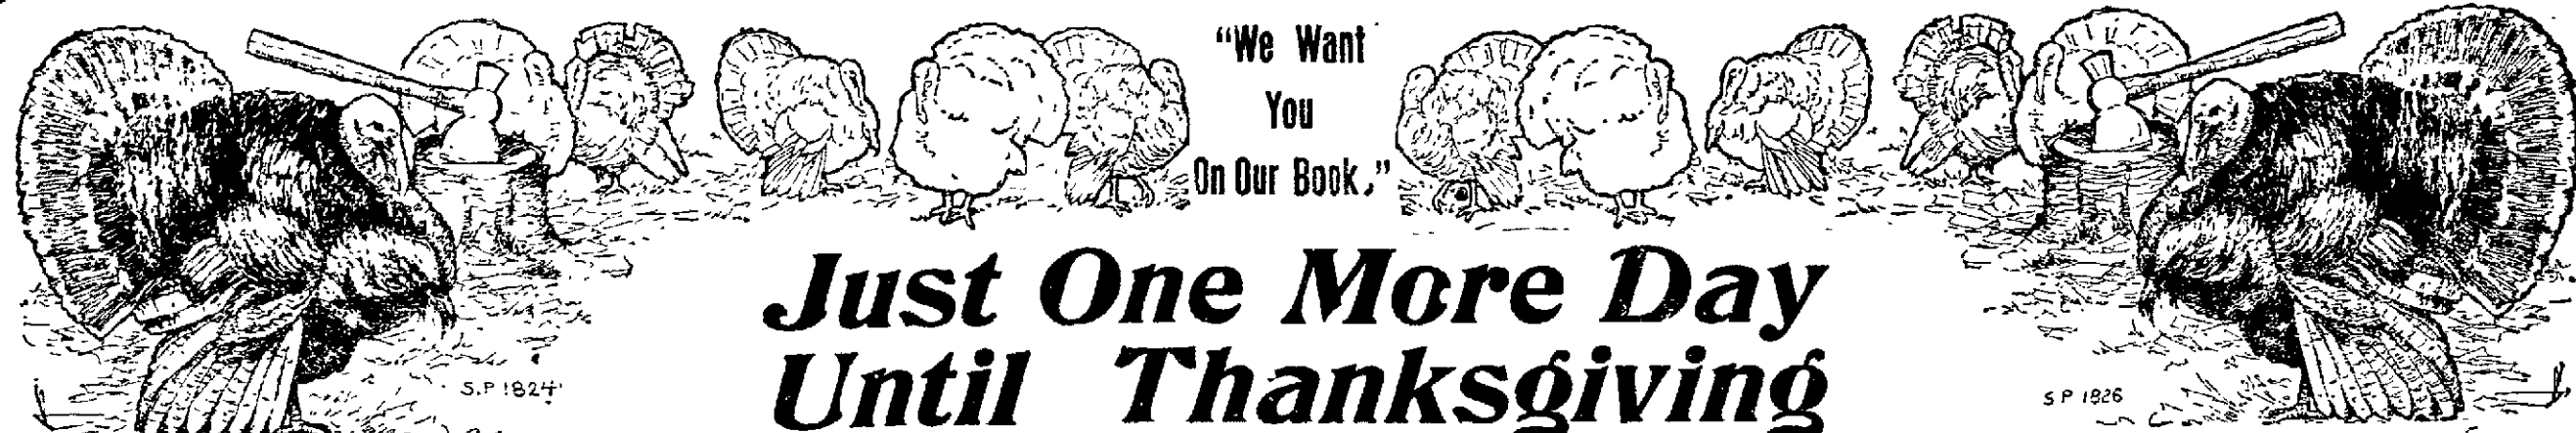

Watering of Railroad Stock. Indianapolis, Ind., Nov. 27.—The "watering" of railroad stock or overcapitalization by the large transportation lines is commented upon by the state railroad commission in its first report, which will be made to the governor of Indiana in the next few days. The report is the first the commission will have filed since its creation by the last general assembly, two years ago. The report shows that 43 roads reporting to the commission state the value of road and equipment and give the value of each per mile. Along with this report is also shown the amount of stock issued. In the comparative statement which the commission has made of these items it appears that 22 of the companies have issued bonds and stocks in excess of the value of the roads and equipment.

Southern Roads Restrained. New Orleans, Nov. 27.—The interstate commerce commission secured a restraining order against several southern railroads, preventing them from charging an excess of 2 cents per hundred pounds over the old rate on lumber to Louisville, Ky., Evansville, Ind., and points in Ohio. The roads affected are the Mobile & Ohio, New Orleans & Texas Pacific, Alabama & Vicksburg, Louisville & Nashville and the Gulf & Ship Island railroads. These roads recently raised the rate to the above points and the commission applied to Judge Puttango in the United States district court for a temporary injunction. The railroads are given 10 days in which to prepare a defense.

REV. GEO. MARSHALL FORMER NEWARK MAN

Who Has Taken Active Interest in Temperance at Columbus in Danger of Violence.

Rev. Geo. A. Marshall, pastor of the West Park avenue M. E. church, Columbus, a former resident of Newark, who for the last three years has been active in temperance circles of the West Side, Columbus, believes that the liquor element in that locality is planning to wreak vengeance on him. He told his congregation Sunday that beer bottles and kegs had been piled in his yard on Halloween. On another occasion he said, he had been met by a drunken man, an ally, he believed of the saloon people. The man asked him if he was not Mr. Marshall. "I just wanted to know you that I might recognize

you some other time," the man had said. "Other temperance leaders have been assassinated," said Mr. Marshall during the course of his remarks. "Who knows?"

TELEPHONE PLANT

Local Officers Deny Report in Columbus That Property is to be Purchased by Syndicate.

Owners of the securities of the Newark Telephone company of whom there are a number in Columbus, are confident that the property will soon be purchased by the United States Long Distance Telephone company of Ohio, or by the St. Louis syndicate. The inspection of the plant made last week was satisfactory to the visitors and it is believed that an announcement of a deal will not be long delayed. If the deal goes through, considerably more than par will be paid for both classes of the company's stock—Tuesday's Ohio State Journal.

The Newark plant was not inspected by prospective purchasers last week or at any other time. The property is not for sale, and no offer for it has been made by the St. Louis syndicate or the U. S. Long Distance company. This statement was made by officers of the Newark company on Tuesday. The company is in a thriving condition having today 2600 local telephones in service. It is paying 8 per cent on common stock, 6 per cent on preferred, and its bonded indebtedness has been reduced to \$20,000.
